

DARE TO MAKE AN IMPACT?

JOIN OUR DARING TEAM AS...

IT Consultant Integration Customer/EDI

Düsseldorf

WHAT YOU'LL DO

- Join the global Henkel B2B Customer Integration team as a Senior B2B Customer Integration Engineer
- End-to-end implementation of EDI B2B integrations, from analysis and setup to mapping and commissioning
- Share (y)our expertise, provide consulting and coordinate relevant EDI topics with external partners, EDI providers, Henkel IT teams and business
- As integral part of our global team you will participate and contribute to Henkel's transition to SAP S/4HANA
- Apply your technical and entrepreneurial skills in your daily tasks, contributing to the evolution of our integration processes

WHAT MAKES YOU A GOOD FIT

- University degree in the field of IT or business administration
- Maximum 5 years of working experience in the EDI integration field
- Good knowledge of typical exchange formats (IDOC, EDIFACT, VDA, XML, ...) and protocols (AS2, OTP2, X.400, API, ...) in the global industrial and automotive business
- Knowledge of SAP module support e.g.: SAP SD, SAP LE etc. as well as an overview of the underlying business processes of EDI connections (e.g.: purchasing, sales) are essential
- Good knowledge of delivery schedule processes and other automotive processes – both from an EDI and business process perspective
- Ideally experienced with multiple middleware solutions (e.g., OpenText, Seeburger, SAP BTP Integration Suite)
- SAP S/4HANA experience would be beneficial as well as ABAP knowledge/ability to debug would be nice to have
- Project Management experience is a big advantage
- Analytical and solution-oriented personality with independent working style and strong communication and team skills
- Very good knowledge of English language, German would be beneficial
